MONITOR, ALBERTA, FRIDAY, JULY 16 1921.

NO. 27

Local Happenings

For the safest Insurance, See Warner at the News Office.

To-day is the Kirriemuir Sports Day Monitor Ball Team is scheduled to play. Big dance follows, with the Monitor Orchestra playing the music. Come on down.

Next Tuesday, the 19th is Altario Sports Day. All are welcome.

L.E. Larder left to-day for Delia, Alta, at which point he will assume charge of the branch store of the Kennedy Drug Co., during Mr. G. Kennedy's absence at the Coast.

Mrs. Robt. Bowers and family left last Sunday morning, for N. Battleford, at which point they will visit Mrs. Bowers' mother.

BORN—To Mr. and Mrs. T.H. Ferguson on Thursday July 7th, at Castor Alta, a son.

Two places of business were searched last week by the p.c. men of the Secret Service, for liquor. Quite needless to remark none was found. It would be interesting to know though, who laid the information. Current suspicion, in spite of correspondence to the contrary, all points to one person.

With the exceptions of the hot winds at the end of last week, weather throughout the district are ideal. A few light showers have fallen this week, which altho light in precipitation, have all helped push the crops. Monday's rain being especially beneficial.

In view of the fact so many were disappointed because the airplanes did not arrive on Sports Day, we wonder why a similar arrangement (with a better ending) could not be made for the School Fair Day next September.

Some Hail

Last Monday evening, during the heavy rain here, hail fell in the Misty Hill and Mud Butte locality to such an extent that the hail was actually visible, like snow, from Monitor, a distance of 12 miles. Hope nobodys crop was underneath! Later reports state no damage done, as the hail was confined to a small area. It is conservatively estimated that 6 to 8 inches of hail fell in 20 minutes.

After big ball game Wednesday July 27th, the Ladies Aid plan to have an ice cream social please remember the date and watch for further announcement next week.

Rev. A. Sutherland of Consort will occupy the pulpit in the Cooperative Church on Sunday July 17 at 7.30 p.m. Everybody is cordially invited—an inspirational and helpful service is anticipated.

Horseshoe School Picnic Is Huge Success

On Friday, 1st. July, a highly successful picnic was held by Horseshoe S.D. No. 3094, on the ground adjoining the school. In spite of the counter-attraction at Gooseberry Lake, parents and those interested in the school turned up to see some real sports. The most interesting events of the were the boys' 100 yds and high jump, won by Harold and Frank Plumb respectively. The latter cleared 4 ft. 1 in.—a very creditable performance for a boy not yet 14 years of age.

The district very much appreciated the kindness of Monitor tradesmen in coming forward with prizes and donations. The kiddies were tickled all all over with them.

contributed

Hon. Chas. Stewart Addresses Gathering

Last Wednesday, the Hon. Chas Stewart addressed a meeting in the Big Hall here. His arrival was delayed owing to bad roads and it was past four before the meeting was called to order. Mr. Stewart was assisted on the platform by Mr. Poynter as Chairman, Dr. Day of Consort, the Liberal candidate, and W.G. MacKenzie, Esq., of Monitor.

After being introduced by Mr. Poynter, Dr. Day very briefly outlined his platform, and stated that he was proud to be the representative chosen of the people for the Liberal Government—a government that has been tried and not found wanting.

Dr. Day was followed by the Premier, who held his hearers closest attention throughout. The Hon. Chas. was very hoarse owing to speaking twice a day for the past four weeks. After the applause greeting his announcement had subsided, the Premier endorsed the candidate Dr. Day, very warmly.

The Premier's speech was perforce, terse and to the point throughout, and dealt in the main, with the past accomplishments of the Stewart Administration as well as future plans. He spoke especially on the great improvements made in the Departments of Public Health, and Education.

The meeting broke up at about 5.45, and the Premier left shortly after for Gadsby.

Stonelaw U.F.W.A.

Stonelaw U.F.W.A. will hold their next meeting in Minor school on Wednesday evening July 20th, at 8 p.m. Dancing will follow the conclusion of meeting. Ice cream will be sold during the evening. All ladies are requested to bring refreshment.

Province of Alberta Co-operative Credit Societies

The Provincial Government has provided legislation designed to encourage the co-operation of farmers by adequate credit, longer term loans, lower interest rates, cash prices for purchases, saving of time and labour, and an improved community spirit.

Increased Farm Credit depends upon:-
[1] Greater reliability of loans
[2] Certainty of repayment.
[3] Adequate powers of security.

The Alberta Co-operative Credit Act, in its amended form, grants exceptional powers in the matter of taking necessary security, and thus repayment can be safely provided for.

Organization of a Society requires:-

1. Fifteen signatures to petition to incorporate

11. Thirty members in good standing to start operations.

111. Each member to subscribe for \$100 stock on which he pays twenty per cent. in cash and twenty per cent. each year thereafter

IV. Affairs controlled by Board of Directors.
V. Limited liability.

Guarantees of Municipal District and Government are given in accordance with terms of Act.

Waste and Its Effect On Prices

One of the most important problems confronting the people in nearly all countries is how to bring down the costs of production to figures more nearly approximating those which prevailed prior to the war. It is likewise the most difficult problem to solve without creating conditions which would be even more disastrous than the present handicap imposed upon all productive enterprises.

The war created conditions which resulted in a rapid and phenomenal rise in the cost of all raw materials and labor; in fact, of everything entering into the production of goods and articles of every description. The inevitable result was an enormous increase in prices, and while war's demands kept up production to top-notch capacity, with the ending of the war and the re-stocking of the world's supply of necessities, there has come a falling off in demand and consequently in production because people cannot pay the prices which present costs of production make it imperative to charge. The result is unemployment, and the greater the number of unemployed the lower falls the purchasing power of the country. There must, therefore, be a decrease in the costs of production before there can be any marked improvement in the volume of business and of employment.

It is clear, therefore, that there must be a further readjustment. Prices of raw materials have fallen, but the cost of labor necessary to convert these materials for use continues so high, and the cost of transporting both raw materials and the finished products so excessive, that there is not the activity in evidence which the economic needs of the country and all people demand. And labor very naturally insists that it cannot work for a materially reduced wage until there is a reduction in costs of living.

There is one field, however, in which labor can do much to remedy the present situation and reduce costs of production without being obliged to accept lower wages, and the action which labor should take in the interests of all will not be to increase employment but, on the contrary, the effect must be to increase employment. The action which labor should take is to remove the many restrictions which are arbitrarily imposed by their union regulations and which operate to increase costs of production out of all proportion to the actual work involved in production.

Reference was recently made in this column to the waste of time, labor and money involved in the insistence by printers that type set up for one purpose, say an advertisement in a newspaper, must not be used for another purpose, as, for example, in a piece of job printing, but that the same matter must be set up twice. This is pure waste, but the printers insist upon it under the mistaken idea that they are thereby creating more employment. As a matter of fact by unnecessarily increasing costs they are actually curtailing employment.

One of the most serious handicaps to business today is the excessively high railway freight rates. These unduly high charges are affecting every line of business and production. These high rates were partly brought about during the war by the high cost of raw materials, but these costs are now substantially lower. Wages, however, are still high. But the most serious item in costs of railway operation are the new regulations imposed by the railway unions which force the employment of three, four and five men to do a piece of work which one man, or a man and a helper, can do just as well and even more expeditiously. The labor of the others is pure waste, for which the public is compelled to pay, and which necessitates excessive freight and passenger rates in order to pay for this waste.

Toll is taken on every bushel of grain raised, every head of livestock shipped, every load of lumber or coal, every item of merchandise handled, to pay for this waste. Nobody escapes from paying for a share of this waste. The railway employee who fancies he is profiting from enforcing these economically unsound regulations pays just as do other railway employees, union labor everywhere, and the people generally who know they do not benefit in any degree from having men employed in the doing of unnecessary and totally unproductive work.

Dean Swift, in one of his famous satires makes the King of Brobdingnag express the opinion that whoever could make two ears of corn, or two blades of grass to grow upon a spot of ground where only one grew before, deserved better of mankind and did more essential service to his country than the whole race of politicians put together. Unfortunately for the present age, organized labor seems to have become permeated with the idea that the wise, proper and statesmanlike course is for a man to produce only one-half or one-third as much as he is easily capable of producing, and to insist that several men should be employed to do what would be only a reasonable day's work for one.

In next week's article some recent disclosures resulting from an official inquiry will be cited as indicating the direction in which reform must come in order to right, or at all events improve, existing economic conditions in this and other countries.

Fur Auction

\$300,000 Worth of Pelts Offered For Sale In Winnipeg.

Three hundred thousand dollars worth of pelts were offered for sale in June by the Winnipeg Fur Auction Sales Company. The sale included the entire collection of the Lamson-Hubbard Canadian Company's Mackenzie and Arctic furs. All of the furs which were presented at this fair were guaranteed to be of this season's catch.

Invalids' Chairs Licensed.

In England the rolling-chairs used by invalids and others have to carry a motor license.

Minard's Liniment for sale every-where.

What Did He Mean?

"I'm glad you're home early, dear," said the young bride. "I've made some lovely biscuits for dinner." "Good!" exclaimed Hubby. "Oh, that reminds me, I took out a \$10,000 life insurance policy today."—New York Sun.

Feed the body well

Right food for the body is more important than right fuel for the engine.

New Use For Seaplanes

Fish Eggs Carried From Hatcheries To Inaccessible Points.

A new use for the seaplane has been found on the Pacific coast by officials of the department of marine and fisheries working in co-operation with the air board officials at the Vancouver seaplane station. It is in carrying fish eggs from the hatcheries to otherwise inaccessible parts of the coast line, where eggs can be placed under water in special boxes invented by one of the fishery officers and allowed to complete hatching there. Patrols are also being undertaken, in connection with the fisheries department officials to circumvent fish poachers who stray into forbidden waters.

Dining saloons on the Argentine railways are being furnished with pianos.

RHEUMATISM

Is Your's Acute or Chronic?

In either case you'll get such results from good old "Nervine" which has five times the pain destroying power of ordinary remedies. Nervine gives results because it penetrates to the source of the pain, because it contains ingredients that destroy rheumatic pains. It is the unusually bad case that proves the power of Nervine. Suited for young and old; used internally and externally for many purposes, 35c at all dealers.

In India an elephant that has twenty toes is considered more valuable than the sacred white elephant is in Siam.

Cuts and Bruises Disappear.—When suffering from cuts, scratches, bruises, sprains, sore throat or chest and any similar ailment, use Dr. Thomas' Electric Oil. Its healing power is well-known in every section of the community. A bottle of Dr. Thomas' Electric Oil should be in every medicine chest ready for the emergencies that may always be anticipated.

It's advisable for a young man to make haste slowly if the girl has another string to her bow.

RED HOT JULY DAYS

HARD ON THE BABY

July—the month of oppressive heat; red hot days and sweltering nights; is extremely hard on little ones. Diarrhoea, dysentery, colic and cholera in infants carry off thousands of precious little lives every summer. The mother must be constantly on her guard to prevent these troubles or if they come on suddenly to fight them. No other medicine is of such aid to mothers during the hot summer as is Baby's Own Tablets. They regulate the bowels and stomach, and an occasional dose given to the well child will prevent summer complaint, or if the trouble does come on suddenly will banish it. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

An Inland Sea Voyage

Ideal Vacation Trip By Lake To and From Eastern Canada.

An unflinching cure for every ill that is not positively incurable, is Eastern Canada, two days and two nights on the water, in the freshest of fresh air in the world, to the accompaniment of the finest social, or secluded environment known to human experience, is what the Canadian Pacific Great Lakes steamship service offers throughout the summer months.

The price is but a mere song. The bill of fare is without parallel in any holiday programme. The congeniality of the thing eclipses anything you have yet known. The succession of wonderful sights, landscape glories, engineering marvels, historic landmarks met with on the way during every waking hour, absolutely beggars description.

Here's a heaven-sent opportunity for every soul seeking rest and restoration of body and mind, from the hard toiling business or professional citizen who has "run a little below par" to the saddest memorial of human frailty, hidebound to all advice from those who are compelled to live with him. A post card to any Canadian Pacific Agent will bring you every detail of this wonderful vacation tour of rejuvenation. R3

Edmonton Woman Now Eats Better and Feels Better Than In Years

"It certainly is wonderful how quickly the right medicine will get a person feeling well again," said Mrs. Edward Fuller, 12436 122nd St., Edmonton, Alberta.

"When I began taking Tanlac I was so weak and run-down I could hardly hold out through the day. Nothing I ate tasted good to me and I just had to force myself to eat enough to keep alive. I had a headache every day and was restless and nervous and slept so poorly that I

was worn out and listless when morning came.

"Inside of a month, Tanlac had me feeling like an entirely different person and I am now eating, sleeping and feeling better than I have in years. My headaches and nervousness soon disappeared and my housework, which had been a drudgery before, actually became a pleasure.

"In my opinion there never was a medicine made that is the equal of Tanlac."

Tanlac is sold by leading druggists everywhere.

A Dangerous Place.

An Irishman visiting a friend in hospital began to take an interest in the other patients.

"What are you in here for?" he asked one.

"I've got tonsillitis, and I've got to have my tonsils removed," was the answer.

"And you?" he asked another.

"I've got blood-poisoning in the arm, and they're going to cut it off," was the reply.

"Holy Moses," said Pat in horror. "This is no place for me. I've got a cold in me head!"

It is easier for a father to keep his coin and his boy apart than it is to teach them to stick together.

It Will Relieve A Cold.—Colds are the commonest ailments of mankind and if neglected may lead to serious conditions. Dr. Thomas' Electric Oil will relieve the bronchial passages of inflammation speedily and thoroughly and will strengthen them against subsequent attack. And as it eases the inflammation it will stop the cough because it allays all irritation in the throat. Try it and prove it.

The public libraries of Great Britain circulate nearly 60,000,000 books a year.

WEEDS

Poison Water Hemlock is getting in Creek beds and Ponds, look for it, and pull it out, and burn it, cattle and Horses will be dying from unknown causes. Last week I said fix the threshing machine, but I find the binders not ready. Fix them both. Those ready to cut weeds, with binders, notify me at once. Remember election day is July 18th. In this Farming Constituency, where every person must depend for his or her living on the results of the efforts of the Farmer it would seem the duty of every person to cooperate with the Farmers in voting for their candidate, Mr. Geo. M. Johnston; and then when election is over, still cooperate with him in finding ways to help every Farmer to get on a paying basis. I feel that his ability and energy and his earnestness, will be a great assistance to me in finding ways to raise the Standard of Farming here; so let this election be a "vote of confidence" for the Farmer, and then have a "get together" of every interest and industry in the Constituency; a "real campaign" for results; you can have Mr. Johnston's cooperation and constructive ability for 12 months in the year, during his entire term; everybody vote right and then help him to use his organizing ability.

Entirely New Treatment For Bronchitis, Catarrh No Internal Medicine To Take

Years ago the profession fought Catarrh by internal dosing. This upset the stomach and didn't remove the trouble. The modern treatment consists of breathing the healing soothing essence of Catarrhoxone, which goes instantly to the source and the trouble. Catarrhoxone is successful because it penetrates where liquid medicine can't go. The balsamic vapour of Catarrhoxone drives out the germs, soothes the irritation, relieves the cough, makes Catarrh troubles disappear quickly. For bad throat, coughs, bronchitis, Catarrhoxone is a wonder. Two months treatment one dollar. Small size 50c. Sold everywhere or The Catarrhoxone Co., Montreal.

The Homesteaders

—BY—
ROBERT J. C. STEAD

Published By Special Arrangement
with The Author.

(Continued.)

Harris and his young bride found much to occupy their attention. Their minds were big with plans, nebulous and indefinite but charged with potentiality, which they should put to effect when they had selected their prairie home. To the young girl, naturally of romantic temperament, the journey of life upon which they had so recently embarked together took on something of the glamour of knightly adventure. Through the roseate lens of early womanhood the vague undefined difficulties that loomed before her were veiled in a mist of glory as she felt that no sacrifice could really hurt no privation could cut deep while she was fulfilling her destiny as wife and comrade to the bravest and best of men. The vast plains heart-breaking in their utter emptiness could only be full to her—full of life, and love, and color; full of a happiness too great to be contained. She watched the gaunt trees rising naked from the white forest, and her mind flitted on a thousand miles in advance, while on the cold window-sill her fingers tapped time to the click of the car wheels underneath.

Harris, too, was busy with his thoughts. He measured the obstacles ahead with the greater precision of the masculine mind. To him, however, was not a magician's wand to dissolve his difficulties in thin air, but a mighty power which should enable him to uproot them from their path. No matter what stood in the way—what loneliness, what hardship, what disappointment and even disillusionment—he should fight his way out to ultimate victory for the sake of the dear girl at his side. As she watched the wintry landscape dreamily through the window he shot quick glances at her fine face; the white brow, the long lashes tempering the light of her deep magnetic eyes; the perfect nose, through whose thin walls was diffused the faintest pink against a setting of ivory; lips, closed and tender as in the sleep of a little child; chin, strong, but not too strong; and a neck full and beautiful, the whole forming a picture of purity, gentleness, and confidence which set his being aglow with the joy of immeasurable possession. As he thought of her love, her

TOBACCO HEART

Every Smoker Read This

Tobacco does not seem to affect all alike. Many men enjoy their smoke, live to a good old age, and apparently suffer no ill-effects from the use of the weed.

There are others though, on whose heart and nervous system tobacco produces the most serious results. It causes palpitation, pain in the heart, and irregularity of its beat, makes the hands tremble, sets the nerves on edge, and causes shortness of breath and loss of sleep.

To counteract this demoralizing influence on the heart and nerves there is no remedy to equal Milburn's Heart and Nerve Pills.

They make the heart beat strong and steady, restore tone and vigor to the nerves, and remove all the evil results caused by the tobacco.

Mr. D. McKillop, Cochrane, N.S., writes:—I was using too much tobacco, and got so I could not sleep at night, my hands used to tremble something awfully, and I suffered terrible from pains in my heart. I told a friend about it, and he advised me to get your Milburn's Heart and Nerve Pills. I took two boxes, and they gave great satisfaction.

Price 50c a box at all dealers or mailed direct on receipt of price by The T. B. Milburn Co., Limited, Toronto, Ont.

faith her confidence, he swore in his own big heart that neither harm nor want nor sorrow should come upon her; that through every adversity of life he would be her protector, her champion, her defence. And so in the charn and courage of their young dream they rode trustfully, joyously, into the unknown.

With Ned Beacon, the trusty hired man, in charge of the carload of effects, under the direction of Tom Morrison, Harris was relieved of many duties and responsibilities that would have broken in somewhat rudely on his dream. Traffic was congested with the immigrant movement; cars were side-tracked at nameless places for indefinite periods, but stock had to be fed and cared for; bonds had to be provided and all the conditions of departmental red tape complied with when the effects entered the United States; for in 1882 the All-Canadian railway was a young giant fighting for life with the mighty rocks of the North Shore route, and railway traffic with the New West was, therefore, billed over American roads. These details and a score of others called for patience, for tact, and a judicious distribution of dollar bills. Harris made a mental note of his obligation to Tom Morrison in the matter. He was shrewd enough to surmise that this was the farmer's very practical wedding gift, but he took debit for it nevertheless.

And so the journey wore on. As day succeeded day to the monotonous rumble of the car wheels the immigrants became better acquainted, and friendship took root that in after years were to brave every storm of adversity and bloom forth in the splendid community of spirit and sacrifice which particularly distinguished the pioneers. But the strain of travel drew heavily upon physical endurance; meals eaten stale from lunch-baskets, or hastily snatched at wayside stations; the cramp of days spent in the crowded sties; lack of exercise and lack of sleep; these laid their heavy fingers on the strongest and heartiest. But one night the word went around that daylight would see them back on Canadian soil, and the lagging spirit of the travellers was revived. Someone struck up an impromptu hymn, men, women and children joined in the chorus as they caught the words, and rolled it forth with a vigor that vibrated every timber of the car.

"O, Prairie Land, sweet Prairie Land,
Where everyone joins heart and hand."

They sang, and the sociability of the party seemed to swell with the volume of the song. A bond of human interest, human interdependence—perhaps, even a sense of common suffering, was already linking them together with links of steel that should withstand every shock of the rough road, and bind together the foundations of a mighty land.

In the cold grey of a March morning, when the sun had not yet dispelled the mists of night, and the fringing woods back from the river looked white and spectral through the frost, they re-entered the Empire, and in a few minutes were detaining at Emerson, the boundary town and Hudson's Bay Company's post at a thousand miles stretched into the mysteries of the unknown.

CHAPTER II. Into The Wilderness.

Emerson was the gateway of the great invasion. Situated just on the Canadian side of the International Boundary, the "farthest west" of all communication, on the threshold of the prairie country, it seemed the strategic point for the great city which must arise with the settlement and development of the fertile kingdom of territory lying between the Lake of the Woods and the Rocky Mountains, and between the Forty-ninth Parallel and the unknown northern limit of agriculture. Sixty miles northward, at the junction of the Red and Assiniboine Rivers, Winnipeg was "throwing street-tenders out from her main traffic trunk which marked the route the Indian car had followed for years as they bore their buffalo hide and pemmican to the Fort Garry. Winnipeg was to be on the main-line of the Canadian Pacific Railway—at least, so the promoters of its town-site firmly affirmed; but Sir Kirk, still farther north, was already flourishing in the assurance that the railway would cross the river at that point. But the Canadian Pacific Railway way as yet existed mainly upon paper; its advance guard were pouring nitro-glycerine into the rocks of the wild Lake Superior fastnesses, and a land band of resolution men were risking financial disaster in an indomitable effort to drive through a project which had dismayed even the Government of Canada. Some there were who said the Canadian Pacific would never be built, and many there were who said that if built it would always be a charge upon the country—that in the very nature of things it could never become self-supporting.

So while Winnipeg and Selkirk indulged their visions Emerson was already enjoying to the full the prosperity which accompanied the influx of settlers. Although the immigrants were not wealthy as the term is now understood even in an agricultural community, most of them had enough

money to pay for their outfitting and place them on their homesteads ready for operations. Accommodation in Emerson was at a premium; hotel space was out of the question, and even the barest rooms commanded exorbitant camp prices. These commodities which the settler must needs have had taken their cue from hotel prices, and were quoted at figures that struck the much thought and scratching on the part of the thrifty and somewhat close-fisted new arrivals from the East.

Harris left his wife with a company of other women in the Government immigration building while he set out to find, if possible, lodgings where she might live until he was ready to take her to the homestead country. He must first make a trip of exploration himself, and as this might require several weeks his present consideration was to place her in prouder surroundings before he left. He soon found that all the hotels were full, and had they not been full the prices for a room would have been beyond his reach; and even had it been otherwise he would have asked her to share the hardships of the exploration trip rather than leave her amid associations which were all too apparent in the hotel section of the town. The parasites and camp-followers, the men who had come to the easy money that might be wrung in devious ways from the inflowing tide of farmers, were already represented in force, and flaunted brazenly the seamy side of the civilization which was advancing into the New West.

Turning to parts of the town which were less openly engaged in business, legitimate, questionable, or beyond question, Harris inquired at many doors for lodging for himself and wife, or for his wife alone. The response ranged from curt "no answers" that the inmates "ain't takin' boarders" to sympathetic assurances that it could not be found, but for another it would be done, but the house was already crowded to suffocation. Great lines of washing in the back yards, and groups of dirty children splashing in the spring mud, bore testimony to the congestion. The March sun was beating down with astonishing fierceness, and the unside-walked streets were a welter of slush. In two hours Harris, notwithstanding his stout frame and his young enthusiasm, dragged himself

somewhat disconsolately back to the immigration building with the information that his search had been fruitless.

At the door he met Tom Morrison and another, whom he recognized as the teller of Indian stories which had captivated the children of his car. Morrison was a man of forty, with a dash of grey in his hair and a kindly twinkle in his shrewd eyes; his companion was a bigger man, of about the same age, whose weather-beaten face bore testimony to the years already spent in pioneer life on the prairie.

"And what luck have ye had?" asked Morrison, seizing the young man by the arm. "Little, I'll be thinkin', by the smile ye're forcin' up. But what am I thinkin' of? Mr. McCrae is from way out in the Wakopa country, and an old-timer on the prairie. He knows every corner in the town, I'm thinkin'."

"Alek McCrae," said the big man. "We leave our 'mistress' east of the Great Lakes. An Ah'm not from Wakopa, unless you give that name to all the country from Pembina Crossing to Turtle Mountain. Ah'm doing business all through there, an' no more partial to one place than another."

"What is your line of business, Mr. McCrae?" asked Harris.

"Alek, I said, an' Alek it is."
"All right," said the other, laughing.
"What is your business, Alek?"

"My business is assisting settlers to get located on suitable land, an' eking out my own living by the process. There's a strip of country in there, fifty miles long by twenty miles wide, that Ah know like you know your own farm down east. It cost me something to learn it, an' Ah sell the information for part of what it cost. Perhaps Ah can do something for you later, along professional lines. Just now, as Tom here tells me, you're hunting a house for the wife. Ah know Emerson too well to suppose you have found one."

"I haven't, for a fact," said Harris, reminded of the urgency of his mission. "I've tramped more mud this morning than would make a good farm in Ontario, but mad as I got for my trouble."

Making History.

INFANT MORTALITY in past ages has been something frightful, something almost beyond belief, and even today it occupies the time and the mind of leading physicians in all countries. The death rate among infants is being gradually reduced through new methods of hygiene, new preventatives and new remedies for infants. This reduction in the death rate has NOT been accomplished by adapting the precautions taken and remedies used by adults. Rather has it been to keep clear of the old methods, and choose after long research the precautions and remedies specifically applicable to infants.

This being so, is it necessary for us to caution mothers against trying to give her baby relief with a remedy that she would use for herself? Will she remember that Fletcher's Castoria is strictly a remedy for infants and children?

Children Cry For

Fletcher's
CASTORIA

Of Course You Love Your Baby.

You love it because of its very helplessness, because it can't tell you what is the matter when it feels bad. It can only cry and look to you for help. But the more you love baby, the more you want to help baby, the more you ought to realize what a wonderful remedy Fletcher's Castoria is. It has been used for babies' ailments for over thirty years.

An experienced doctor discovered Fletcher's Castoria especially for babies' use. It is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. Doctors who know what is safe and best for babies have only good to say of it.

Don't neglect your baby. Get a bottle of Fletcher's Castoria and give baby a few doses of it. See how the little one smiles at you as if trying to thank you for helping it. Soon you will learn to depend on Fletcher's Castoria, made just for Infants and Children, and of course you would not think of using anything for them that was not prepared especially for Infants and Children. So keep it in the house.

Service Is Our Middle Name

Among Our Exchanges

Here is a good one taken from an exchange: "In the beginning God created Heaven and earth and all things therein. He then created men and women, and left the loafers on the corners. And in due time they multiplied, and spread in to the depot, postoffice and stores. In the latter place they sit and explain state and national problems that have vexed great minds, and exist by partially sampling goods. While he is thus engaged, his wife is out washing for neighbors, and the children are left at home to care for themselves. There is nothing more noticeable than the loafer."

IT PAYS TO ADVERTISE

A Western evangelist makes a practice of painting religious lines on rocks and fences along public highways. One ran, "What will you do when you die?"

Came an advertising man and painted under it:
Use Chase's Ointment—Good for burns."

A man May lick his wife, cut up something scandalous with the girls, play poker till dawn shirk his job and drink hard "licker," but if he always pays his debts by the tenth of the month nearly everybody will have a good word for him.

The Reform league in Ontario dealt them-selves an awful blow when during the terrific heat wave that engulfed the East they endeavored to stop Sunday bathing.

It is actions like this, and similar ones, that are making the league to become the laughing stock of civilization.

A sister of the same league—"The International Reform League" in the U.S.A. are following in the same steps. They are trying to issue injunctions against Dempsey, champion boxer of the world, for "assault and battery" upon Georges Carpentier. Think of it. Georges challenged Jack. Georges attempted to strike Jack first, but because Jack cleaned up on the Frenchman, he is to be pinched (?) for assault. What a sense of humor.

Monday Next
JULY 18TH IS
VOTING DAY

The St. Lawrence Sunday School Picnic, held at Gooseberry Lake last Wednesday, was a perfect success from every standpoint. Beautiful weather aided and abetted by the proper picnic spirit gave the kiddies the time of their lives. Owing to pressure of time and space, we are unfortunately unable to give a full and detailed account of the happenings at the Lake, but we will remark that the success of the day is due in the main to the untiring energy of the Pastor, Rev. W. S. Wickenden who did everything possible to give the kiddies a day to themselves. The matter of transportation was left in the hands of Mr. Jas. Hayes, and in spite of many difficulties was efficiently handled. The party returned home at about 10.30 p.m., tired, but satisfied and doubtless looking forward to next years picnic.

Ball Gossip

By our own Correspondent

Monitor again emerged victorious in Baseball after an exceedingly close game with Neutral Valley, at Gooseberry Lake last Wednesday. The score at the close on the ninth standing 8-9 in favor of Monitor Kirk in the box for the home team, did remarkably well, getting 16 strikeouts—a very worthy performance. In spite of the absence of rooters for the team, Monitor played good ball from start to finish.

On Guard

"Eternal vigilance is the price of liberty." This is true in every walk and activity of life. It is true not merely of the nation, but of the individual. It is true in the realm of political reform, in the preservation of health, in the success of any business undertaking. The man who is indifferent to, neglects and sleeps on his job, cannot succeed. Failure under such circumstances is inevitable in the long run.

Once again the farmers of Western Canada have seeded their acres. It is to be hoped that, bearing the above adage in mind, they have used only good clean seed, the best that could be obtained. It is to be hoped, also, that to the full extent of their available equipment, and the time at their disposal, they have pursued the best accepted methods of farming and prepared the seed bed in the most approved manner.

The growing season (at the time of writing this article) has been all that could be desired, with copious rains and cool days which give promise of a strong rooting of the grain so that it will be in the best possible condition to withstand a dry period should such befall.

But "eternal vigilance is the price of liberty." There are many enemies to a growing crop in this western country. Farmers everywhere must remain alert and vigilant to combat these on every hand. There is the grasshopper scourge. Governments and municipalities have devised and outlined the best methods of fighting this pest, and those materials required to wage the battle have been procured. But official bodies cannot do it all. It remains for the individual farmer everywhere to do his share, to do it promptly and thoroughly. All the precautionary measures should be taken, and an ever watchful eye kept on developments. It is necessary to wage the battle against the grasshopper, not only to save this year's crop, but to insure the success of future crops which the rapid elimination of this danger requires.

Then there is the noxious weed. It takes many forms, but each and every variety is destructive, some, of course, more destructive than others. Noxious weeds have, through neglect, because of neglect in the past, ruined many a fine farm. They are still making headway, and a combined allied warfare by all agriculturists against them is one of the pressing needs of the present time. Noxious weeds cannot be fought by farmers singly. Despite the greatest care by scores of farmers, one or two indifferent and neglectful farmers can do irreparable damage to a whole district. The high winds of the west can seed an immense area of land with weeds just as effectively as a drill can seed them.

Farmers complain sometimes of excessive elevator charges taking an undue toll from the receipts of their year's labor; or of the prevailing high freight rates which have the same effect; or of the loss of so many cents a bushel resulting from a sudden drop in the market price. It is important, however, that they should become fully seized of the fact that noxious weeds, by decreasing the yield from their acres is taking, year after year, a heavier toll than any one of these things, and frequently a heavier toll than all of them put together.

Noxious weeds impose a loss of millions of dollars annually upon the farmers of Western Canada through decreased yield. They impose a further loss in threshing bills. They add more loss in a falling off in grade. Finally, they are a huge bill of expense for work in cleaning the land once it has been fouled, while the capital and sale value of any farm is enormously reduced from the presence of weeds, not only on the farm itself, but in the surrounding district.

Every farmer, therefore, should not only make it his personal business to clean his own land, and keep it clean, but he should actively interest himself in the affairs of his municipality and see that, through the enactment and enforcement of necessary laws for the protection of all, his whole district is cleaned up and kept clean.

World Happenings Briefly Told

Oregon and Washington lumber mills cut 8,844,000,000 feet in 1920, the largest on record.

Watson Bathel's Glasgow cattle reports show that Canadian steers sold at 19 and 20 cents per pound live-weight.

Emma Goldman, deported to Russia, is said to be pleading with her friends to obtain permission for her to come "home" to the U.S. to die.

Two sisters just graduated from Athens, O., high school have attended school ten years without missing a day or being late.

Hon. S. F. Talmie, minister of agriculture, declined to accede to appeals that the "short" berry box be permitted again this season.

A powerful "funeral trust," reaping a toll of millions of dollars from Chicagoans by maintaining high prices for funeral cars and hearse, is said to have been in operation in Chicago for years.

Six Japanese submarines have collided during naval manoeuvres off the coast of Kiusiu, and one of them has been seriously damaged. As a result the proposed long distance cruise of these craft has been postponed.

Janitor of the Venter, N.J., city council chamber, is going to strike for bigger pay because, he says, after the League of Women Voters ends its meetings the floor is so littered with cigarette butts as to cause him extra work.

City planners should be able to forecast at least 25 years ahead in order to provide for the changes the airship will make in commerce, said John Hladky, manager of the civic development department of the U.S. Chamber of Commerce.

PALE AND NERVOUS SCHOOL CHILDREN

Need Rich, Red Blood To Regain Health and Strength.

Many children start school in excellent health, but after a short time home work, examinations, hurried meals and crowded school rooms cause their blood to become weak, their nerves over-wrought and their color and spirits lost. It is a mistake to let matters drift when boys and girls show symptoms of nervousness or weak blood. They are almost sure to fall victims of St. Vitus dance, or drift into debility that leads to other troubles. Regular meals, outdoor exercise and plenty of sleep are necessary to combat the nervous wear of school life. But it is still more important that parents should pay attention to the school child's blood supply. Keep this rich and red by giving Dr. Williams' Pink Pills and the boy or girl will be sturdy and fit for school. The value of Dr. Williams' Pink Pills in cases of this kind is shown by the statement of Mrs. Watson, Grand Falls, N.B., who says: "In the spring of 1919 my daughter, Thistle, then 12 years of age, began to show symptoms of nervousness which developed into St. Vitus dance. She seemed to lose control of her limbs and at times every muscle in her body seemed to be twitching and jerking, and the trouble seemed to be growing worse. We finally decided to give Dr. Williams' Pink Pills, and the result was better even than we had hoped for, and she is now enjoying the best of health."

It Had Been Used.

The young house-wife, looking very pretty and workman like in a big green overall, was clearing out the pantry cupboard.

"Dickie," she cried to her young husband, who was smoking in the spick-and-span little drawing room, "I want you to bring me a mousetrap home tomorrow."

"But, Angel," cried the young man, "I brought you one home yesterday."

"I know, pet," called back the young bride, "but that one has a mouse in it!"—Spanish River News.

All Alike.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

Gen. Smuts Is Hopeful For Peace In Ireland

After a Conference With De Valera Thinks That Problem Is Capable of Solution.

London.—For the moment General Jan Christian Smuts, the South African premier, is the outstanding figure in the hoped-for peace settlement in Ireland. General Smuts has returned from that country where he engaged in conference with Eamon de Valera and other men of influence in the Irish situation and he declares his belief that the problem is capable of solution.

In his remarks at a dinner of the South African colony, Gen. Smuts, pleading for conciliation on the part of both sides, declared that a similar problem, equally difficult, had been solved in South Africa and that now South Africa was one of the happiest countries in the empire.

The Irish problem, said General Smuts, was one largely engaging the whole empire. It was a problem, however, on which he could not speak now, except to express the belief that it was soluble and that "if we all

help to create a better atmosphere and are determined to wipe out what is really a stain on the empire's record, we shall succeed.

"Therefore," he continued emphatically, "I think I am hopeful. I trust that the question will be solved and that thereby the British Empire will be freed from the imputation that in this ancient part of the United Kingdom there still exists a violation of the fundamental principles on which the empire rests. I say that the problem is soluble because I have seen it solved in my own country, under circumstances less embittered than in Ireland, but certainly of a very different character, too."

It was due in large measure to General Smuts' influence that the South African question of whether it should become a republic or remain linked with the Empire, was settled, and General Smuts of late has been giving much thought and study to the Irish problem.

Sylvia Pankhurst Freed

Sylvia Pankhurst, recently released from Holloway Jail, London, after serving five months as a result of articles that appeared in her Communist paper, "Workers' Dreadnought."

Economic Loss To Britain

Seventy Million Days Were Lost Over the Coal Strike.

London.—Seventy million working days lost to the nation and £18,000,000 of extra expenditure incurred by the Government, are the official estimates computed in connection with the economic situation caused by the coal dispute.

The defense force army of reservists cost £70,000,000 and the railways claim £9,000,000 against the State for May alone.

The emptiness of the State coffers is demonstrated by the £100,000,000 payment in the House of Commons that a new and unlimited issue of treasury bonds at 97 and bearing interest at 5 1/2 per cent. is urgently needed to meet obligations maturing in the next few months.

Three hundred million pounds of debts has to be dealt with instead of the one hundred million originally budgeted for. The new bonds will run for eight years, thus giving time for a gigantic fund operation at a more reasonable opportunity.

Farmer Leaders' Tour

Waiting to Learn What Dates Can Be Arranged With Hon. T. A. Cramer.

Toronto.—The tour of the Big Three farmer leaders is still up in the air. Premier Drury and J. J. Morrison have been waiting to learn what dates could be arranged with Hon. T. A. Cramer.

Today word was received at U.F.O. headquarters to the effect that Mr. Cramer could not promise any definite time as yet, but that he still was making efforts to attend the Canadian Council of Agriculture, which opens its session in Toronto on July 26. If he is able to do so, the speaking tour will probably be made late in July or early in August.

Real Thrill at Calgary Fair.

Calgary.—Eight thousand people, the largest grandstand crowd of the present Calgary exhibition, were given a real thrill during the automobile races when a Mooney special, driven by Uorske Larson, threw a wheel when travelling close to 60 miles an hour.

The car ploughed through the dirt for 30 feet, while Larson turned a few somersaults but fortunately escaped uninjured.

Russia Wants Autos.

Paris.—Representatives of Soviet Russia have been feeling out the ground in trade circles in France with the view, they indicated, of placing orders for automobiles and other articles of commerce, but reports from commercial quarters are that they have met with little encouragement.

Census Returns Rapid.

Ottawa.—Returns from the census commissioners are coming in rapidly to the Dominion Bureau of Statistics according to a statement made by E. S. McPhail, assistant census commissioner. The census so far promises to be the most complete in the history of Canada.

My First Dog Driving

By O-GE-MAS-ES (Little Clerk).

(Copyrighted)

(Continued)

I also speedily adopted the native dress which is infinitely the best for the north. A dark blue 3/4 ell blanket capot, unlined, which came about halfway to the knee, and strange to say they were made without buttons but fastened with buckskin thongs and gartering. Then stroud leggings coming halfway up the thigh, made loosely and always with a fringe on the outside seam, white for every day and blue for festive occasions. These were always gartered firmly below the knee. Then best of all, a full-sized la assumption belt of many colors which was girded above the hips and formed a great support and also made the costume much warmer. A huge pair of fur or moose skin mittens were always carried as a spare. These were fastened together by a thong long enough to go over the belt. Gloves or light mitts were used when running, but if caught in a storm or lost track the big ones were essential.

The first experience a tender foot has when running is to sweat violently, and here the ordinary wool sock is but of little use as it gets wet where you tread and is difficult and slow to dry. So I soon discarded them and adopted the oblong duffle or strond square, which can be dried in a minute or two at any stop and there are four changes, one in each corner of it. I still kept the legs of the wool stockings and simply cut the feet off.

There is another most important part of a dog driver's equipment, and that is the whip. The ordinary hickory is as cute as a fox and quite often as wicked as a bear, so his respect for his driver is governed by the latter's ability to punish. A good whip is made of plaited deer skin thongs over a round heart, which is loaded with shot tapering in size. Four, six or eight thongs are used according to taste. First-class whip makers were famous and found a ready sale for their whips practically at their own prices. The handle was of hardwood, sixteen to twenty inches long, and loaded at the head. This was useful as a weapon if the dogs attacked you. Well, I have described the whip to the best of my ability, but how to use it is quite another matter. What I speak of was training, and after some years did obtain a certain measure of success. But was never a crack by any means.

It was a fearsome sight to see Johnny Beads when thoroughly exasperated by the conduct of his team, applying the whip. Upsetting his flat sleigh and placing his foot on the trace he would proceed to flay the culprit whose yells could be heard for miles, while his mates would join in for sympathy. At every stroke the hair would fly from the shoulders to the hips. The Russian Knout could

not have been much worse. The whip, however, was not brutal, but a club was, and I have often interfered when the latter was used. Fortunately my own team were so willing and high-spirited that a whip was not necessary. Sired by a Scotch stag hound, their mother a husky, they all took after the father in disposition, and were the only first-class train I was ever lucky enough to own. The whip, however, was always necessary at feeding time to protect your own team. Two whitefish was the day's meal for each dog and this was his breakfast, dinner and supper all in one, for as a rule dogs were never fed in the daytime; though with my fast travellers, especially when alone, I found a small quantity of dried or pounded meat very helpful in the middle of the day. These fish were carried frozen and were thawed at night before the camp fire. They are stuck through the ribs by a wide, rounded, the speed, which was useful to carry them by. Feeding time arrives and the dogs consisting of two, three or four trains, have been watching the fish at the fire closely. You call your own dogs, all the men being a little distance apart. My dogs were delicate and did not bolt the fish in two bites as Brandy would. Accordingly an attack would be made on my team by the other dogs every night, and at first I would yell for assistance, much to the amusement of the other drivers.

And so the days went on. Post after post was visited by the factor until we were homeward bound, for Ross River, making the last camp at Riding Mountain House with some sixty miles to go. The iron factor still kept me ahead and descending a hill, a branch caught my snow goggles and whirled them into space. No one could find them, so we went, and consequently I was laid up for a day or two with a severe attack of snow blindness which is most painful. The native cure is to steam the eyes over strong black tea and poultice them with the leaves.

Speaking of pains in one place which are dreaded by dog drivers, I was camping later on that winter with Johnny Beads at the Qu'Appelle River en route to Fort Pelly, and after we had made our camp he took his blanket and axe and started for the ice. I watched him with interest as he steadily chopped for half an hour and at last struck the water which, as usual, rose to the top. He then stripped off his moose skin pants and moccasins and held his leg in the ice water right up to his middle for over five minutes. Then, wrapping his blanket round him, he came tearing up through the snow barefooted to camp. "What have you been doing Johnny?" I asked. "Oh," he replied, "I had a pain in my leg and that is the best cure!"

Canada To Share In Reparations

Basis Likely to be on Expenditure of Country and Number of Casualties.

London.—The conference of Prime Ministers are grappling with the problem of reparations. Under the decision reached by the Supreme Allied Council, the Empire receives twenty-two per cent. of whatever Germany pays, fifty-five per cent. going to France and the balance to Belgium and Italy and the other allied nations. The task now confronting the conference is to fix a basis upon which the amount to be collected by the Empire shall be apportioned among its different parts.

This, it is being found, involves no little difficulty. It involves difficulty because a basis that might work advantageously for one dominion might prove fatal to another. Thus, for example, if loss of shipping were to be made the basis, the mother country, which suffered so heavily in tonnage, would get practically everything and the dominions nothing.

No decision was reached, but it is understood that it is not improbable that the amounts will be determined by expenditure and the number of casualties. This, it is believed, would be satisfactory to Premier McPherson, in view of Canada's comparatively heavy sacrifices, both in blood and treasure. It would ensure the Dominion receiving a fair share of whatever amounts are paid over.

As to what amount it may be found possible to collect from Germany, that, of course, is an entirely different matter. Sir Robert Horne, chancellor of the exchequer, who addressed the conference on the matter, requested that his words be held confidential, but there is good reason for stating that he was not over sanguine of any great sum being realized.

Britain Is Grateful

Express Appreciation of Services Given by Governor-General To Canada.

Ottawa.—A cablegram of appreciation of his services while governor-general of Canada has been received by His Excellency, the Duke of Devonshire, from the secretary of state for the colonies. The cablegram is as follows:

"His Majesty's Government have observed with great pleasure the terms of high appreciation in which your services as governor-general of Canada are acknowledged in the closing address presented to you at the closing of parliament and in the speeches on the address read in both houses. They are much gratified to note the recognition in all quarters of your devotion to Canada and Canadian interests during your term of office and feel that you have thereby rendered notable service to the whole Empire. I should be glad if you will communicate this telegram to your government."

British Fleet Prepared For Turks

Mediterranean Squadrons Quit Malta When Situation Threatens At Turkish Capital.

Malta.—Virtually the entire British Mediterranean fleet with all the attendant ships, including the aircraft vessel Pegasus, is enroute for or concentrated within easy reach of Constantinople, where the situation is viewed with some alarm, in view of expected attacks by Kemalist troops. It is said that British military reinforcements also are coming out from England immediately.

Never before has the harbor of Malta been so empty. Even the reserve ships here are destined for the east, and the vessels which recently failed in that direction have carried large supplies of ammunition.

In view of these movements the commander-in-chief of the Mediterranean, Admiral de Robeck, who was expected here July 21, was not considered likely to come.

The only exceptions to the naval movement eastward are five vessels of the light cruiser squadron, under Admiral Tyrwhitt, which are at Alexandria.

A Farmer's Book

Drury, Morrison and Other U. F. O. Leaders Will Collaborate.

Toronto.—One of the Christmas books this year will be an autobiography of the United Farmers of Ontario. Premier Drury is writing of the movement as a whole; J. F. Morrison has been assigned to write the political aspects of W. L. Smith will outline the early Agrarian movement; Col. J. S. Fraser will tell of farmers' experience in running a newspaper; W. C. Good will reveal the economic reasons for the U. F. O.; and Mrs. George Brodie will write of what the United Farm Women of Ontario have accomplished and how to do yet. M. H. Staples, the U. F. O. director of education, will edit the volume and prophesy what will happen to the movement in the future.

Gardiner's Big Majority.

Medicine Hat.—Official count of the Medicine Hat by-election held on June 27, gives Robert Gardiner, National Progressive candidate, a majority of 9,749 over Col. Nelson Spencer, Government candidate, with still one poll to be heard from.

Flax Factory For West

Winnipeg.—Winnipeg is likely to be selected as a site of a \$3,000,000 factory for the spinning and twisting of flax, according to R. J. Hutchinson, chief of the flax division of the Federal Department of Agriculture, who was here enroute to Ottawa after visiting the principal flax-growing centres in the west. Choice of location is between Calgary and Winnipeg, Mr. Hutchinson said. The erection of the factory will be begun early this fall.

Airships For Forest

Two "Blimps" Will Be Used in the Lake of the Woods District.

Camp Borden, Ont.—Two airships of the blimp type were shipped recently to be used by the Keweenaw Lumber Company in the Lake of the Woods district. Under the direction of Lieut. Col. Mulock, D.S.O., formerly of the naval air service, they will be used for forest patrol work, as well as aerial photography. They are being loaned by the air board so that reports on their capabilities may be made by the company.

Give your local merchants a chance. Buy at home.

Amundsen Will Sail For North Pole

New York.—Captain Amundsen is going to try and drift across to the North Pole. Arriving here after his rescue from the Siberian coast, the Norwegian explorer was quick to say that he would repair his damaged ship Maude, and go north again next summer to freeze into the polar flow and start his Arctic drift, which he expects will take five years.

Reclaim Land in B.C.

Work Will Be Carried On By British Columbia and Idaho Governments.

Victoria.—Reclamation of 100,000 acres of agricultural land in the Kootenay Flats, one-third of which is in British Columbia and the balance in Idaho, was discussed at a conference here between Premier Oliver, John T. Pattullo, minister of lands, and Governor Baker, of Idaho, and W. G. Swenson, of the Idaho reclamation commission.

It is expected the reclamation work will be carried on jointly by the British Columbia and Idaho Governments, but Ottawa and Washington will have to be consulted.

Bush Fires In Ontario.

Toronto.—Although bush fires are blazing in dozens of places in Northern Ontario on both sides of the Temiskaming and Northern Ontario Railway east and west of Cochrane, no great conflagration has developed as yet, due to the fact that there has been no wind to speak of. Reports from the north agree that if a stiff wind springs up before rain comes to extinguish the flames, no section of the settled part of the north country will be free from the menace of fire out of control.

World Happenings Briefly Told

Tokio, the capital of Japan, is to have an underground railway.

Circulation of dimes, pennies, nickels, quarters and half dollars in the U.S. amounts to \$261,319,628 and silver dollars to \$77,584,548.

Fort Norman oil is of such high grade that it did not freeze last winter, even during 58 below zero weather.

Three hundred convicts from prisons in New York State have been divided into "honor gangs" and put to work on road building.

The volume of travel on the Great Lakes this summer is unprecedented according to H. B. Smith, president of the Northern Navigation Company.

The first estimate places the wheat crop of Italy at 180,000,000 bushels, compared with 141,000,000 last year and 169,000,000 in 1919. The crop outlook in Rumania is favorable.

On account of the crime wave at present existing on the island of Montreal and inadequate police protection, burglary insurance companies have advanced their rates from 25 to 100 per cent.

Maxim Gorky's communist wife, Mme. Andreeva, has succeeded in passing the Soviet frontiers in an effort to escape starvation which is causing many of the Red leaders to leave Moscow for diplomatic jobs elsewhere.

A party of 30 ex-Imperial service men, who were granted free transportation from England, arrived in Winnipeg recently. Practically all of these men are going to work on Manitoba farms for a year before taking up land of their own.

Yuka Osaki, former Prime Minister of Japan, on the conclusion of a 10,000-mile campaign of the empire in behalf of limitation of armaments, declared his conviction that if the United States Government proposed a conference on limitation of armaments it would meet with an eager response throughout Japan.

PAINS SO BAD STAYED IN BED

Young Mrs. Beecroft Had Miserable Time Until She Took Lydia E. Pinkham's Vegetable Compound.

Hamilton, Ont.—"I have suffered for three years from a female trouble and consequent weakness, pain and irregularity which kept me in bed four or five days each month. I nearly went crazy with pains in my back, and for about a week at a time I could not do my work. I saw Lydia E. Pinkham's Vegetable Compound advertised in the Hamilton Spectator and I took it. Now I have no pain and am quite regular unless I overwork or stay on my feet from early morning until late at night. I keep house and do all my own work without any trouble. I have recommended the Compound to several friends."—Mrs. Emily Beecroft, 289 Victoria Ave. N., Hamilton, Ontario.

For forty years women have been telling how Lydia E. Pinkham's Vegetable Compound has restored their health when suffering with female ills. This accounts for the enormous demand for it from coast to coast. If you are troubled with any ailment peculiar to women why don't you try Lydia E. Pinkham's Vegetable Compound? It is made from native roots and herbs and contains no narcotics or harmful drugs. For special advice women are asked to write the Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of forty years experience is at your service.

W. N. U. 1376

Big Gold Production

Production in British Columbia This Year Will Aggregate \$3,500,000.

It is estimated that gold production in British Columbia this year will aggregate \$3,500,000, or nearly one million better than last year. The Rossland Mines, which yielded gold to the value of around \$600,000 last year, will have an output this year of \$1,500,000. The next largest producer will be the Surf Inlet Mine, of Princess Royal Island, with a production of about \$1,000,000.

If Tormented With Corns, Use Good Old "Putnam's"

It's really a simple thing to remove your corns, and without pain, if you apply Putnam's Corn Extractor. It acts like magic, lifts out the corn, root and branch, leaves the skin smooth as silk. No failure with "Putnam's," 25c everywhere.

They Weren't Straight Lines.

Itinerant Preacher (to farmer).—Did you ever stop to think who set the stars in the heavens, my good man?

Farmer Hitchman.—Nopel But the feller that did the job could never set termaters for me, by gum!—Detroit News.

Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and Blood Purifier, and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and restoring normal conditions. All druggists. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

Spend your money at home, thereby helping your own town and local merchants.

Worms feed upon the vitality of children and endanger their lives. A simple and effective remedy is Mother Graves' Worm Extirminator.

Increased Immigration

Immigration to Canada for the month of April, 1921, totalled 15,052 in comparison with 13,287 in April, 1919, an increase of 13 per cent. Of the total newcomers 8,476 were from the British Isles, 5,035 from the United States, and 1,541 from other countries.

Minard's Liniment for Burns, etc.**Plan Your Vacation Trip**

Special Summer Tourist Fares to the Pacific Coast.

Special Summer Tourist tickets to Vancouver, Victoria, Seattle and other Pacific Coast points are now on sale daily by the Canadian Pacific Railway. These tickets will bear a final return limit until October 31st, and permit stopovers en route, which gives travellers an opportunity of visiting some of the beautiful resorts in the Rockies, such as Banff, Lake Louise and Glacier, where the Company maintain splendid resort hotels. These tickets are optional via the main line or Arrow Lakes route in one or both directions without extra charge. No expensive side trips necessary.

In addition to the "Trans-Canada Limited" exclusive sleeping car train, a choice of two other daily trains is offered, and as all are equipped with open-top observation cars through the mountains an excellent view of the magnificent scenery may be had.

Any Agent of the Canadian Pacific will be pleased to give further particulars and make the necessary arrangements for the trip.

Minard's Liniment for Dandruff.

Study Geological Formation in North

To Investigate Oil and Mineral Resources of MacKenzie River District.

The Geological Survey has sent four field parties to investigate further the oil and other mineral resources of the MacKenzie River district. Special attention will be paid to the examination of the succession and fold structure of the Devonian sediments in the Fort Norman district, where oil was obtained last fall by the Imperial Oil Company, and to the systematic mapping and study of the geological formation on each side of the MacKenzie River between Great Slave Lake and Fort Norman.

DO YOU FEEL LIKE THIS WHEN YOU WAKEN?

Do you feel blue sickly, heavy, too tired to get up? If so, it's probably your liver which is slow, and needs to be toned and stimulated by Dr. Hamilton's Pills. It's a wonderful change Dr. Hamilton's Pills will make in a few days. They relieve the system of poisonous wastes, they aid the stomach, improve digestion, increase your appetite. You'll feel like new all over after using this health bringing medicine. Thousands have proved it. Sold everywhere in 25c boxes, or The Catarrhozone Co., Montreal.

English Boys for Canadian Farms.

On board the Canadian Pacific Railway steamship Victorian which arrived at Quebec recently was a party of twenty-eight English orphan boys en route to Sherbrooke, where they will be instructed in the rudiments of Canadian farming and after a course of one or two months will be sent out to different farms in the Dominion.

Miller's Worm Powders act so thoroughly that stomachic and intestinal worms pass from the child without being noticed and without inconvenience to the sufferer. They are painless and perfect in action, and at all times will be found a healthy medicine, strengthening the infantile stomach and maintaining it in vigorous operation, so that, besides being an effective vermifuge, they are tonic and health giving to the entire system.

Shark Fishing at the Coast.

Five hundred mud sharks in less than two hours is the catch announced by the Anglo-British Canadian Company, Limited, which organization is now prosecuting the shark fishing industry in the gulf of Georgia.

STOMACH TROUBLE DUE TO THIN BLOOD

It Usually Disappears When the Blood is Made Rich and Red.

Thin blood is one of the most common causes of stomach trouble. It affects the digestion very quickly. The glands that furnish the digestive fluids are diminished in their activity, the stomach muscles are weakened and there is a loss of nerve-force. In this state of health nothing will more quickly restore the appetite, digestion, and normal nutrition than good, rich, red blood.

Dr. Williams' Pink Pills act directly on the blood, making it rich and red, and this enriched blood strengthens weak nerves, stimulates tired muscles, and awakens to normal activity the glands that supply the digestive fluids. This is shown by an improved appetite, and soon the effect of these blood enriching pills is evident throughout the whole system. You find that what you eat does not distress you, and that you are vigorous instead of irritable and listless. If your appetite is fickle, if you have any of the distressing pains and symptoms of indigestion, you should at once take Dr. Williams' Pink Pills and profit by the better condition in which they will put your blood.

The pills are sold by all dealers in medicine, or you can get them by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

A large nest of wasps will account for at least 24,000 flies a day, says one naturalist.

MINARD'S "KING OF PAIN" LINIMENT

Blisters, Feet, Sore Feet, Tired Feet, Burning and Aching Feet.

After a hard day's work in a long tramp and your feet are completely used up, bathe them in hot water, then rub them well with MINARD'S LINIMENT. It will soothe you and you will never be without a bottle.

Tangerine Chiffon For Evening Party

By Marie Belmont.

Among the decorations that are much in vogue at this time are beads. Sometimes these are extremely large or again they may be quite tiny when they are massed together to achieve a decorative effect. On this evening gown small and large alternate where they are used to outline the dress. It is fashioned very simply. The skirt is designed with an irregularly draped tunic that is prettily weighted by the beads. The corsage is made with a deep U-opening. A small piece of the chiffon is inserted in the opening, the upper part being, bound with lace, while the girdle is enriched with flat silk lace.

There is no poisonous ingredient in Holloway's Corn Remover, and it can be used without danger or injury.

A marine grass found extensively in the Japanese waters yields a fibre which, when mixed with cotton, both strengthens and cheapens thread, which is usually made of cotton alone.

Cause of Asthma. No one can say with certainty exactly what causes the establishing of asthmatic conditions. Dust from the street, from flowers, from grain and various other irritants may set up a trouble impossible to be relieved except through a sure preparation such as Dr. J. D. Kellogg's Asthma Remedy. Uncertainty may exist as to cause, but there can be no uncertainty regarding a remedy which has given relief to a generation of asthmatic victims of this scourge of the bronchial tubes. It is sold everywhere.

A town cannot grow without business. By helping your local dealer you assist the community.

Judicial Sale of Farm Property

Pursuant to a judgment and final order for sale made in a certain action in the Supreme Court of Alberta, Judicial District of Calgary, No. 16731 there will be offered for sale with the approbation of this Court by B. R. Cramer Auctioneer, in front of the Post Office at Monitor, in the Province of Alberta, at 2 o'clock in the afternoon on Saturday the 8th day of August A.D. 1921, the following Lands and premises, namely: The North East quarter of Section Twenty-two (22) in Township Thirty-four (34) Range Three (3) West of the 4th Meridian, in the Province of Alberta, containing 160 acres more or less reserving unto His Majesty all mines and minerals.

The Plaintiff is informed that this property is situated about nine miles South East of Monitor; that the land is lightly rolling; and that the soil is a chocolate loam.

The property will be offered for sale subject to a reserved bid, which has been settled by the Court, and subject to all assessments, rates and taxes imposed on or subsequent to the first day of January 1920.

Terms: 15% deposit at the time of the sale, and the balance of the purchase price to be paid into Court within sixty days without interest.

Further conditions of sale will be read at the time of the sale or may be had from Messrs. Charles F. Adams and Company, Bank of Montreal Building, Calgary, Alberta, Solicitors for the Plaintiff.

DATED at Calgary in the Province of Alberta, this 29th day of June A.D. 1921.
